

Alex Calhoun, Chief
Inland Fisheries Branch
Sacramento Headquarters Office, Region 3

December 10, 1963

Ham and Dago Creeks Crossings.

Warden William Bakker of Boonville has just notified us that the crossings on Ham and Dago Creeks have been removed and the log jams upstream from the crossings have also been removed.

Photographs of the completed work were sent in and are available if you desire.

Looks like our field trip paid off!
