

1 anadromous fish populations and a decline in the scenic  
2 and recreational qualities of such river system;

3 (2) the loss of land areas inundated by two reser-  
4 voirs constructed in connection with such project has  
5 caused substantial reductions in the populations of deer  
6 and other wildlife historically found in the Trinity  
7 River Basin;

8 (3) the Act referred to in paragraph (1) of this  
9 section directed the Secretary of the Interior (herein-  
10 after in this Act referred to as the "Secretary") to take  
11 appropriate actions to insure the preservation and  
12 propagation of such fish and wildlife and additional au-  
13 thority was conferred on the Secretary under the Act  
14 approved September 4, 1980 (94 Stat. 1062), to take  
15 certain actions to mitigate the impact on fish and wild-  
16 life of the construction and operation of the Trinity  
17 River division;

18 (4) activities other than those related to the proj-  
19 ect have also had an effect on fish and wildlife popula-  
20 tions in the Trinity River Basin and are of such a  
21 nature that the cause of any detrimental impact on  
22 such populations cannot be attributed solely to such ac-  
23 tivities or to the project;

24 (5) a fish and wildlife management program has  
25 been developed by an existing interagency advisor\

1 group called the Trinity River Basin Fish and Wildlife  
2 Task Force; and

3 (6) the Secretary requires additional authority to  
4 implement a basin-wide fish and wildlife management  
5 program in order to achieve the long-term goal of re-  
6 storing fish and wildlife populations in the Trinity  
7 River Basin at the level existing immediately before  
8 the start of the construction of the Trinity River  
9 division.

10 **TRINITY RIVER BASIN FISH AND WILDLIFE MANAGEMENT**

11 **PROGRAM**

12 SEC. 2. (a) Subject to subsection (b), the Secretary shall  
13 formulate and implement a fish and wildlife management pro-  
14 gram for the Trinity River Basin designed to restore the fish  
15 and wildlife populations in such basin to the levels existing  
16 immediately prior to the start of the construction referred to  
17 in section 1(1) and to maintain such levels. The program  
18 shall include the following activities:

19 (1) The design, construction, operation, and main-  
20 tenance of facilities to—

21 (A) rehabilitate fish habitats in the Trinity  
22 River between Lewiston Dam and Weitchpec;

23 (B) rehabilitate fish habitats in tributaries of  
24 such river below Lewiston Dam and in the south  
25 fork of such river; and

1 (C) modernize and otherwise increase the ef-  
2 fectiveness of the Trinity River Fish Hatchery.

3 (2) The establishment of a procedure to monitor  
4 (A) the fish and wildlife stock on a continuing basis,  
5 and (B) the effectiveness of the rehabilitation work.

6 (3) Such other activities as the Secretary deter-  
7 mines to be necessary to achieve the long-term goal of  
8 the program.

9 (b)(1) The Secretary shall use the program described in  
10 section 1(5) of this Act as a basis for the management pro-  
11 gram to be formulated under subsection (a) of this section. In  
12 formulating and implementing such management program,  
13 the Secretary shall be assisted by an advisory group called  
14 the Trinity River Basin Fish and Wildlife Task Force estab-  
15 lished under section 3.

16 (2) The Secretary shall coordinate the activities under-  
17 taken under such management program with the activities of  
18 State and local agencies, and the activities of other Federal  
19 agencies, which have responsibilities for managing public  
20 lands and natural resources within the Trinity River Basin.
